Experience

AW Advantage — Pantai Lembeng, Gianyar, Bali
Software Engineer Officer (per Project) — December 2025 - February 2025
Led end-to-end development of public service platforms using Laravel and Vue.js; designed RESTful APIs and improved processing efficiency by ~40%.

Sahabat Laut Lestari (SLL) — Denpasar
Software Developer Officer (Project) — October 2025 - November 2025
Built a Supply Chain Traceability System (fish tracing) using C# and Laravel; optimized DB transaction speeds (>40%) and digitized manual workflows.

Dinas Komunikasi dan Informatika Kabupaten Badung — Badung, Bali, Indonesia
Software Engineer (contract) — March 2025 - September 2025
Architected and maintained government digital services (Laravel, Vue.js), implemented DevOps pipelines and ensured production stability
https://badungkab.go.id/

Villa Bugis — Kuta, Bali, Indonesia
IT Officer (per Project) — January 2025 - February 2025
Supported operations and internal systems.
https://villabugis.com/

PT. Unicare Indonesia Gumilang — Denpasar, Bali, Indonesia
Senior Software Engineer — August 2019 - January 2025
Led feature delivery for clinical network systems; maintained data integrity, internal tools, and reporting using Laravel and modern front-end stacks.

Projects

Personal Portfolio
Designed with a focus on Responsive UI/UX, SEO optimization, and fast load times (Core Web Vitals). Serves as a live demonstration of my frontend architecture skills.
https://oggiesutrisna.vercel.app

Super Coin Collector
Implemented complex game loops and optimized rendering performance for smooth gameplay across devices.
https://zoning-games.vercel.app/

Digimon DTPHD
Games
https://digimon-dtphd.vercel.app/

DokterOne — March 2020
Architected a secure platform for issuing verifiable travel health certificates (QR + PDF), streamlining verification and ensuring regulatory compliance.

Simaka (Sistem Management Karyawan)
Centralized HR system with role-based access; improved reporting accuracy and reduced admin processing time.

e-BKK (Special Financial Assistance System) — June 2025
Designed secure workflows, audit trails, and role-based verification to prevent budget leakage and track inter-department document flow.

e-Delivery — March 2025
Developed a real-time internal document tracking system that reduced delivery delays and eliminated manual tracking errors.

Areyouchitect — 2023
Built a responsive Laravel + Vue CMS to showcase architectural projects; responsible for DB schema, APIs, asset optimization, automated backups, and live demo livestreams to gather client feedback.

Volunteering

Djakarta Warehouse Project — December 16, 2025
GWK Bali
Managed technical visualization setups and coordinated on-site technical teams for Indonesia's largest electronic music festival, ensuring zero downtime during live events.

G20 — March 2022
Nusa Dua Convention Center
Supported logistical operations for a high-security international summit, demonstrating adaptability and discipline in a high-stakes environment.

Bali Clinical Nutrition Update 2023 by Faculty Of Medicine Udayana — July 2023
Sanur, Bali, Indonesia
Led the infrastructure team to ensure smooth technical operations for the medical update conference.
